Governor Brown has mandated that all public school and healthcare workers take the COVID-19 vaccine. Some communities, particularly in rural Oregon, oppose the mandate because many local teachers and healthcare workers say they will quit their jobs rather than take the vaccine. These communities fear that schools and healthcare facilities will close if these workers follow through and quit their jobs.

Q50. Knowing this, do you support or oppose Governor Brown's mandate that all public school and healthcare workers take the COVID-19 vaccine?
